

ERNST-ABBE-HOCHSCHULE JENA (UNIVERSITY OF APPLIED SCIENCES JENA)

The University of Applied Sciences Jena was founded in 1991 and is the biggest University of Applied Sciences in Thuringia. In the interest of a scientifically profound and practically oriented education, the university cooperates with universities in Europe and beyond. The short study periods and a practically orientated focus of studies complement in a sensible way the education at universities and technical universities. The UAS Jena rests on 3 educational columns: engineering Sciences, Business Administration and Social Studies. Networking with regional, national and international businesses and sciences and the high standard of research and development are the specialities of UAS Jena.

USPS OF EAH JENA:

- Practical-orientated Studies with very modern infrastructure and laboratories
- High standard accredited Bachelor- and Master courses with very good job perspectives
- Special study courses, i.e. Optometry or Aeronautical Engineering with solid scientific standards
- Productive cooperations with industries of international standings (Zeiss, Jenoptik, Siemens, IBM, Bosch)
- Research institutions in Jena represent modern technology, up-to-date management and scientific innovation
- Networking with regional, national and international businesses and sciences and third party funding application

LIVING IN JENA:

There are several housing possibilities for students in Jena. Most students live in shared accommodation with other students or in one of the 20 dormitories of the Association for Student Affairs Thuringia. Costs: 167€ - 264€/month.

REQUIREMENTS FOR BACHELOR:

- Equivalence of secondary certification (e.g. A-level, Baccalauréat, Matura etc.)
- Passing DSH or the TestDaf examination

REQUIREMENTS FOR MASTER:

- Bachelor's degree in related field of study
- Excellent grades in all fields
- Passing DSH or the TestDaf examination

ERNST-ABBE-HOCHSCHULE JENA (UNIVERSITY OF APPLIED SCIENCES JENA)

BACHELOR'S DEGREES AVAILABLE

Automation Technology / Information Engineering
 International
 Biotechnology
 Business Administration
 Business Administration and Engineering (Information Technology)
 Business Administration and Industrial Engineering
 Business Information Systems
 E-Commerce
 Electrical Engineering/Information Technology
 Environmental Technology
 Environmental Technology and Processing
 Laser and Optotechnologies
 Materials Engineering
 Mechanical Engineering
 Mechatronics
 Medical Engineering
 Optometry / Ophthalmic optics
 Photovoltaics and Semiconductor Technology
 Physical Engineering
 Precision Engineering
 Social Work

MASTER'S DEGREES AVAILABLE

Business Administration and Engineering
 General Management
 Laser and Optotechnologies
 Materials Engineering
 Mechanical Engineering
 Mechatronics
 Medical Engineering
 Miniaturised Biotechnology
 Optometry / Vision Science
 Pharmaceutical Biotechnology
 Scientific Instrumentation
 Social Work
 Space Electronics
 System Design
